

# MAGNETIC CLAMPING BLOCKS

## MAGNETIC CLAMPING BLOCKS

MBX Magnetic Clamping Blocks have opposite clamping sides when turned ON. Designed to clamp workpieces to steel surfaces, such as machinery or worktables. Ideal for applications such as welding, deburring, tapping or machining operations. With two different shaped clamping surfaces, almost any workpiece geometry can be held such as: flat, round, square or custom profiles. Clamps allow machining on 5-sides, reducing the number of operations.

### FEATURES:

- » Powerful ON/OFF Permanent 2-sided Magnet
- » Holds Flats, Round, Square Workpiece Geometry
- » 90° swing ON/OFF Activation
- » Nickel-plated Housing
- » 3rd Clamping Side for Vertical Holding
- » Turns ON/OFF on Either End
- » Use Hex Rod to Join Two Clamps (not included)
- » Sold in Pairs

Round Material - Surface 1 & 2

Angle Material - Surface 2

Flat Material - Surface 1

Vertical Drilling, Grinding, Welding 3<sup>rd</sup> side Hold

The 90° poles of the MBX can be replaced with workpiece-specific poles

Multiple MBX can be switched at the same time (Hex rod not included)
