

## GRAVITY (IN STREAM)

# PIPE MAGNETS

### Capture Metal In Gravity Flow Pipe Applications

Our Permanent Pipe Magnets protect processing equipment and improve product purity by capturing ferrous tramp metal contaminants in vertical flow systems.

IMI pipe magnets provide product protection for many industries including flour, feed and grain, food processing, powder and bulk, chemical resin, plastic processing and more.

### FEATURES:

- » Easy to clean
- » All welded construction
- » Stainless steel housing
- » Fits 4" to 20" diameter pipe
- » Door mounted permanent magnet
- » Custom sizes and designs available
- » Drilled 3/8" flanges for easy bolt in installation

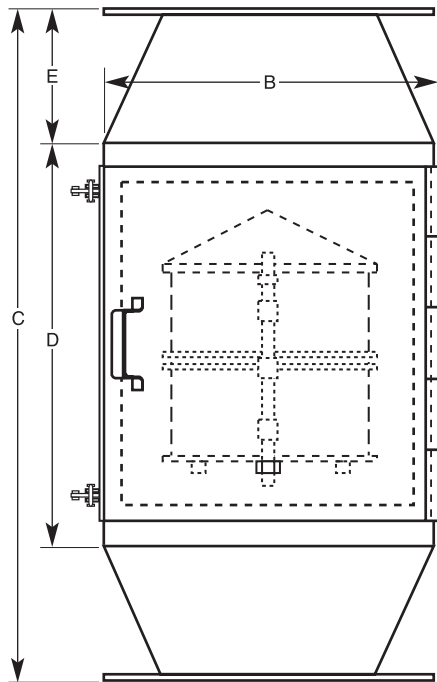

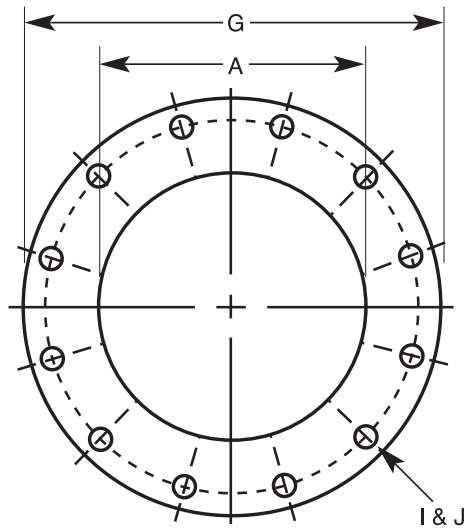

### OPTIONS:

- » 45 MGOe rare earth magnetic circuit
- » EZ-Cleaning stripper sleeve
- » Wear treatment for abrasive products
- » Food Grade construction
- » Other Stainless Steel Grades available
