

Electromagnets

Round, Rectangular and Parallel Pole Electromagnets

AUTOMATION

AG-10A

BENEFITS:

- Electromagnets offer controlled holding power and on-command release of ferrous parts
- Encased in steel and constructed with high temperature potting material
- Ideal for robotic and automated systems

Electromagnets are most effective when they are used in applications having direct contact with the work surface. Special sizes, voltages and mountings are available.

FEATURES:

- 12VDC, 24VDC, 110VDC or 120VAC
- Automated or manual operation
- Fast on/off operation
- 24" leads or terminal block
- Tapped mounting holes

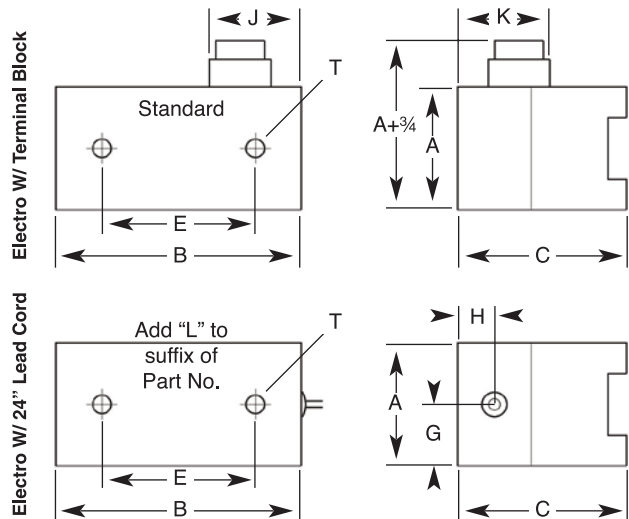

CUSTOM DESIGNS AND OPTIONS:

- Selected cord locations
- Extended lead lengths
- Lead protection
- Retractable cords
- Controlled holding power with optional variable power supplies
- Custom sizes

Parallel Pole Electromagnets

Parallel pole electromagnets offer broad application potential due to their ability to deliver improved strength when in contact with uneven shapes. These magnets can operate where parts have uneven surfaces or odd shapes by using custom machined pole shoes to match the shape of the part.

- Standard models have side mounted terminal block connections
- All sizes available in 24 volts DC
- Excellent holding power in a compact package
- Common mounting bolt sizes in 1" & 2" wide models
- Continuous duty 70°C - 95°C temperature rise
- End exit lead/cord available on all models

Holding Value	24VDC Part No.	A Width	B Length	C Height	T Thread	E Hole Space	G (Lead)	H (Lead)	J (Block)	K (Block)	Watts	Weight

Electromagnets

Round, Rectangular and Parallel Pole Electromagnets

Round Electromagnets

Round electromagnets are available in a variety of sizes. They deliver concentrated power and high responsiveness in a manual or automatic application.

Operating under the control of IMI power supply units, round electromagnets in 12VDC, 24VDC, 110VDC (available upon request) or 120VAC configurations deliver optimum holding power.

Holding Value	12VDC Part No.	24VDC Part No.	120VAC Part No.	A Dia.	B Length	T Thread	G (Lead)	Watts	Weight
6 lbs	ER1-071	ER2-071	-	3/4	1-1/4	10-32	1/4	1.44	1.7 oz
7 lbs	ER1-101	ER2-101	-	1	3/4	10-32	1/4	1.44	1.9 oz
12 lbs	ER1-102	ER2-102	-	1	1-1/4	10-32	1/4	3.60	2.6 oz
22 lbs	ER1-103	ER2-103	-	1-1/4	1-1/4	1/4-20	1/4	4.40	4.2 oz
40 lbs	ER1-104	ER2-104	-	1-1/2	1-1/2	1/4-20	1/4	4.60	8.0 oz
75 lbs	ER1-201	ER2-201	ERA-201	2	1-5/8	1/4-20	3/8	6.00	1.0 lb

325 lbs	ER1-403	ER2-403	-	4	3	3/8-16	3/8	33.00	9.0 lbs

All dimensions are stated in inches.

Rectangular Electromagnets

Rectangular electromagnets are available in a variety of sizes. These magnets provide positive holding power and high responsiveness in numerous manual or automatic applications.

Controlled by a remote IMI power supply, rectangular electromagnets are available in 12VDC, 24VDC, 110VDC (available upon request) and 120VAC models. They deliver positive holding power tailored to the material being handled.

Holding Value	12VDC Part No.	24VDC Part No.	120VAC Part No.	A Width	B Length	C Height	T Thread	E Hole Space	G (Lead)	Watts	Weight
55 lbs	ES1-111	ES2-111	-	1-1/2	1-1/2	1-1/4	10-32	CTR	3/8	8.0	.31 lb.
